

Dear Applicant,

We appreciate your interest in SelaQui International School. The school is located around 20 kms from the city of Dehradun on the Chakrata Road. It is fully residential and offers admissions to girls and boys from class V to class XII. The school is affiliated with CISCE, Council for Indian School Certificate Examinations, and offers the ICSE and ISC curriculums in classes IX/X and XI/XII respectively. Students clearing class X may opt for the International Baccalaureate Diploma Program.

SelaQui International School was set up as a not-for profit educational organization in the year 2002 and was conceived and promoted by, The Gurukul Trust, chaired by Mr. Om Pathak, a former civil servant and pioneer in the field of school education.

Since we are in the midst of far reaching changes in school education and SelaQui International School is in the forefront of such a paradigm shift, it is important that teachers and staff who join us are ignited more by the desire to lead change rather than change for better personal prospects. At this point, we would strongly discourage those, who wish to change only for better prospects. Those who think that they are here to make a difference, should venture out to SelaQui.

The school expects every member of SelaQui community to subscribe to and abide by the vision and mission as reproduced below. All of our teaching, learning, working or living practices must at all times adhere to the spirit of the vision and mission of the school.

The VISION

To be a value driven learning organization with excellence as its standard, where tradition and technology fuse with the best of the available research to provide the impetus for continuing learning and growth.

To create an environment in which Faculty grows as individuals and as educators, ready to realize the vision.

To imbibe learning by enquiry, exploration and experience, rather than by rote.

To be at the cutting edge of educational technology.

THE MISSION

To transform our students to be autonomous individuals who are :-

confident and committed; aware and communicative; compassionate, caring and honest; environment & technology friendly; striving to excel and lead; responsible, disciplined and value driven; learning to cope with life successfully; ready for life and the world **Beyond School**.

To mould the lives of our students so that they become better human beings and lifelong learners.

To strive to build a better world.

To inculcate in a student the love for learning.

The Professional Standards and Expectations for SelaQui faculty are listed on the website. We recommend that you read these carefully and assess yourself before applying. The application form can be downloaded. You need to fill the application in your own hand and submit along with the write up and testimonials as have been requested therein.

Ensure that the application form duly filled and complete in all respects should reach us at our school within 15 days from the date of advertisement. We also welcome applications for other positions too. Such applicants would be contacted when the need arises.

Yours sincerely,

Rakesh Singh Tomar

Headmaster
