

Dear Head of the School,

24.05.2023

As we embark on another year, it is with great excitement that we announce the upcoming 4th edition of the Inter-School Science Decathlon, 'QSD '23', hosted by SelaQui International School. With the global recognition of the urgent need for sustainable solutions to protect our planet, we are thrilled to continue our tradition of promoting scientific knowledge and innovation among young minds. Taking the cue from India's G20 Presidency, the theme for QSD '23 is "Sustainability and Beyond: Nurturing Young Innovators for a Better Tomorrow." It is a reminder that we have borrowed this precious planet from our children, and it is our responsibility to pave the way for a sustainable future. Science and Technology continue to be the indispensable tools in our journey towards addressing the challenges of today and tomorrow.

The Science Decathlon is not any other academic competition. It is not for the best physicist or chemist or maths wiz or tech wonder. It is not about individual brilliance and portraying your glorious acumen in the Sciences. It is about challenging competitors and your team whose members who will become lifelong comrades. It is about outperforming your own expectations, where you will be part of a team, of students with a wide range of grades, striving towards a shared goal.

QSD '23 (<https://www.selaqui.org/qsd-23.php>) will take place from **July 21st to 22nd, 2023**, at SelaQui International School. It is not just any other academic competition. Through a series of **10 events** spanning across STEAM, the Decathletes will master materials, harness skills, and engage with the audience with confidence and facts.

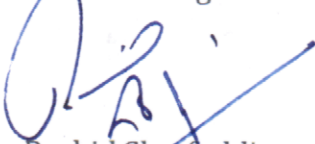

We invite teams from your esteemed school to participate in QSD '23. Each team should comprise of **6 students** from **grades 7 to 12**, accompanied by a teacher mentor from your school. Individual event registrations are also welcome. There is no registration fee for QSD '23, and the **deadline** for registration is **June 30, 2023**.

As Dr. Les Martisko once said, "not just to read, but to understand; not just to win, but to lead." We encourage you and your team to take on this challenging opportunity, as it is through struggle and learning that we grow and become leaders. The Science, IT and Mathematics Departments at SelaQui International School eagerly await the participation of your school in this prestigious event.

Thank you for your support in nurturing young innovators and promoting the importance of sustainable solutions. For any query you may contact Mr. Soham Roy at sohamr@selaqui.org, 9831632079.

We await the Decathletes in the verdant 52 acres of SelaQui.

With kind regards

Rashid Sharfuddin
